## **Web Report January 2008**

### **Access Statistics**

December had **6062** unique visitors in total and January has had **2407** so far which appears to indicate the reduction in site traffic is beginning to taper off. The biggest referrer to our site continues to be Google with people also being directed to our site via the Irish and UK Regional sites.

### **Contact**

There has been a number of emails received this month:

- the mother of an addict got in contact looking for information on meetings in south Cavan
- 2 separate requests from members of the public looking for information on our program
- details of a convention in New Orleans later this year.
- offer of merchandise from previous conventions in the South Florida Region for use in our own fund-raising

- contact from a still suffer addict looking for help

Copies of these emails and my replies are as always available on request.

### **Development**

I have made some progress on redeveloping the site since our last area meeting. My time available for this is extremely limited and I can't say when I'll have something worth showing but I will continue to report on how things are going.

Steve W,
